

GENUINE KUBOTA PARTS

GENUINE KUBOTA PARTS

Made exclusively for Kubota industrial engines

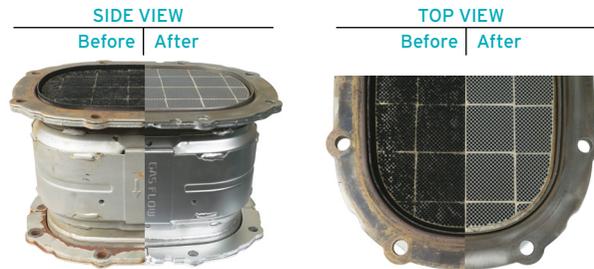

CERTIFIED DPF CLEANING

Kubota-certified DPF cleaning is designed to thoroughly recondition your DPF with high-pressure air and a high-temperature bake in a special kiln, followed by a second round of pneumatic cleaning.

Clean DPF Exchange Kit

Just pick up a Clean DPF Exchange Kit at your local Kubota distributor. Install the pre-cleaned DPF and send your old one to Kubota.

- Complete, no-hassle kit
- Free nationwide collection in United States
- Trustworthy cleaning

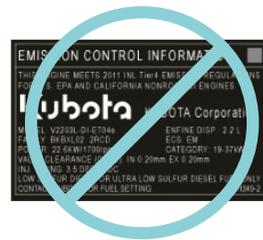

Kubota Diesel Particulate Filters are thoroughly inspected, reconditioned, painted and certified ready for service right out of the box.

WHERE TO FIND THE ENGINE SERIAL NUMBER

Finding parts is easy when you have your serial number, along with the type of equipment and product brand name.

Visit the Kubota Engine American website for specific serial number locations.

KubotaEngine.com/Products/Parts/Where-To-Find-the-Engine-Serial-Number

Do not use the emissions label for parts inquiries.

CONTACT YOUR KUBOTA ENGINE AMERICA DISTRIBUTOR

Find the parts you need, along with authorized support and service for your Kubota engine.

PROTECT IT WITH GENUINE KUBOTA PARTS

What's the best way to ensure consistent performance from your Kubota engine, year after year? Always use genuine Kubota parts. They're the same parts used in our factories. They're built to our standards. If you gamble on anything else, you could be sacrificing the high quality and reliability that made you choose Kubota in the first place.

**Choose the best for your Kubota engine.
Choose genuine Kubota parts every time.**

ONE-YEAR WARRANTY

We're confident that our parts are the superior choice for your engine, and we're more than willing to back it up. That's why every Kubota parts purchase is protected by a one-year warranty.

GENUINE KUBOTA OIL AND FILTERS

Made exclusively for Kubota industrial engines and the severe conditions they encounter on the job, genuine oil and filters protect performance and extend the life of your engine.

Kubota Engine Oil

It lubricates, cools and cleans all at once, and it precisely conforms to the strict quality standards of Kubota.

Kubota Oil Filters

Kubota oil filters are made to remove the harmful contaminants encountered every day, when dust, debris and other hazards are part of the job.

GENUINE REMANUFACTURED

They're remanufactured to the same stringent quality specifications as a new Kubota part, but they offer considerable savings and a smaller environmental footprint. Like our new parts, Kubota backs your reman purchase with a one-year warranty.

ALTERNATORS

INJECTOR PUMPS

INJECTORS

STARTERS

TURBO CHARGERS

CYLINDER HEAD PROGRAM

Kubota offers complete cylinder head assemblies that are fully assembled with valves, springs and seals.

ENGINE OVERHAUL KITS

Kubota engine overhaul kits will save you time looking up the individual parts used in an overhaul. The kits include the same Genuine Parts used in Kubota's manufacturing process.
