

KUBOTA DEALER PROGRAM

BECOME A KUBOTA ENGINE DEALER.

The Kubota logo, featuring the word "Kubota" in a stylized, teal-colored font. The letter "K" is larger and more prominent, with the "u" and "b" integrated into its design. The "o" and "t" are also stylized, and the "a" is a simple, rounded letter.

INTRODUCTION TO KUBOTA

Kubota is the world-leading manufacturer of compact, multi-cylinder, liquid-cooled diesel engines up to 200 HP.

Kubota Corporation was established in 1890 in Osaka, Japan, as a foundry. In 1922 Kubota started its production of the horizontal, liquid-cooled kerosene engine for agricultural use. Kubota engines were first introduced in the United States in the early '80s. Ever since then Kubota has become the market leader in the diesel engine market below 100 horsepower.

In 1982, the engine division was established within Kubota Tractor Corporation. The engine division commenced with 10 employees in Elk Grove Village, Illinois. The engine division was dedicated to the sales and service of the quickly expanding industrial diesel engine market in the United States. In response to the continued rise of the diesel engine demand in the U.S. market Kubota Engine America Corporation (KEA) was formed in 1998 as an independent company.

KEA oversees the sale of engines, generators and service parts through a vast distribution network in the U.S., Canada and Latin America.

WHY YOU SHOULD BE A KUBOTA ENGINE DEALER

Don't be left behind.

Around every corner there is a Kubota engine under the hood.

There are over 3 million Kubota engines out in the field in hundreds of different applications. This means parts and service opportunities for you as an authorized Kubota engine dealer. As the population continues to grow Kubota wants to make sure that our dealer network is prepared to provide parts and service to any Kubota engine.

Emission regulations have made diesel engines cleaner for the environment but the technology has changed making them more complex to troubleshoot and troublesome to service. The days of using just a few tools are long gone. As an authorized Kubota engine dealer we will make sure that you have all of the required tools and the proper training to service Kubota's Tier 4 final engines. Kubota wants to make sure that you are armed with all of the proper knowledge and tools to make your business successful.

BENEFITS OF BEING A KUBOTA DEALER

You are recognized as the leader and are officially part of the Kubota team.

YOU ARE
the qualified expert!

YOU HAVE
access to and receive factory training through the Kubota Engine Academy.

YOU ARE

YOU CAN
access engine repair information manuals, illustrated parts lists, diagnostic tool software and other resources available through the Kubota Engine Park (KEP).

YOU ARE
supported by your signing distributor and Kubota Engine America.

ABOUT THE DEALER PROGRAM

Kubota Engine America offers three dealer types.

Each dealer type offers different benefits and authorization levels designed to integrate with your business model.

- Full Service Dealer
- Specialized Dealer
- Trade Partner

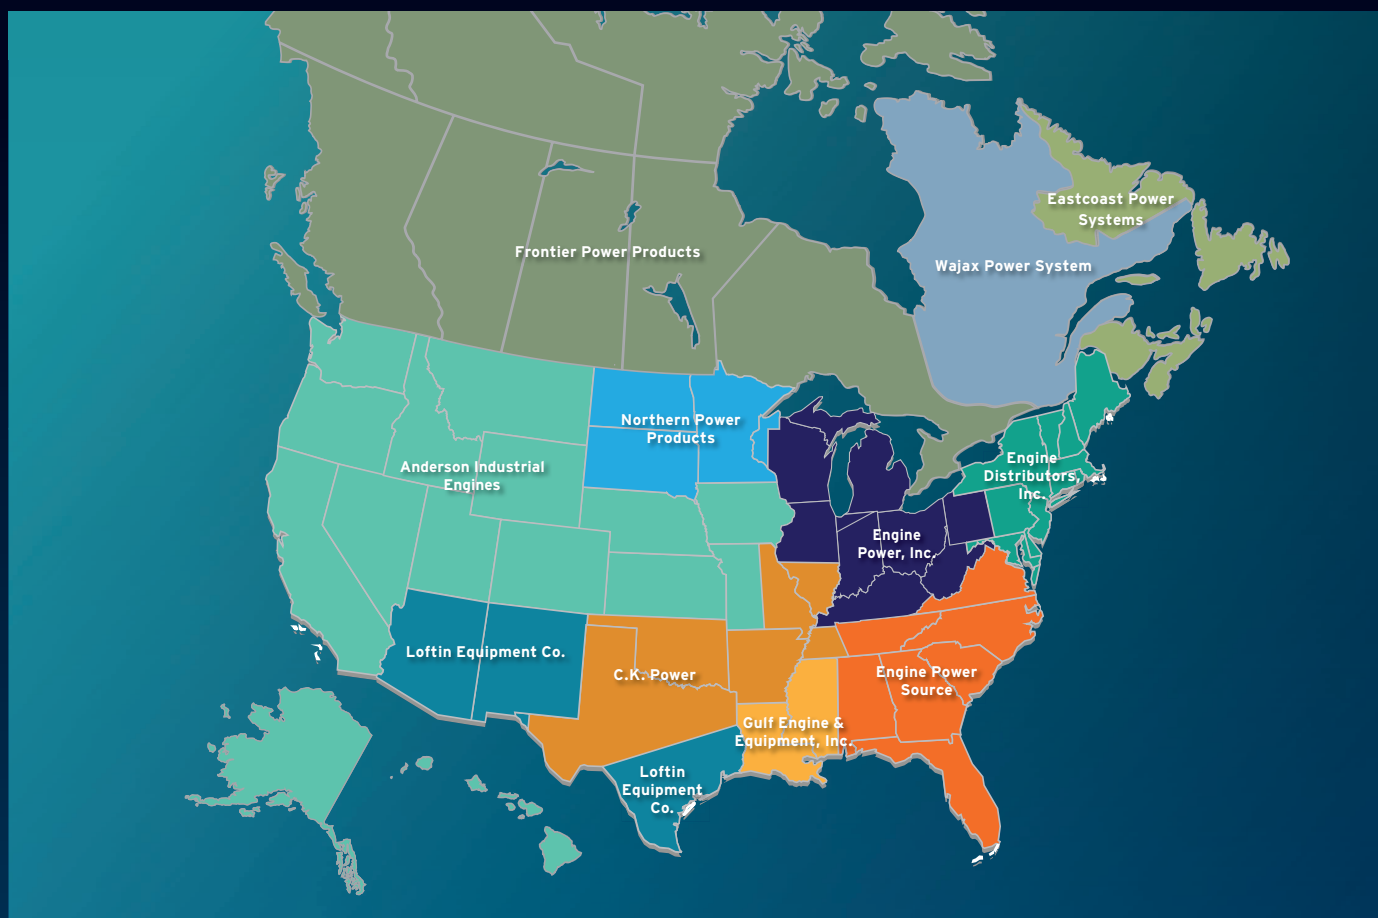

The table below summarizes the requirements for each dealer type.

DEALER TYPE	FULL SERVICE DEALER	SPECIALIZED DEALER	TRADE PARTNER
Service Authorization	Full Service Dealer is authorized to service Kubota engines within any model of OEM equipment that is not considered self-servicing by Kubota Engine America.	Specialized Dealer is authorized to service Kubota engines: 1) utilized within the specific OEM brands of equipment that they sell to end users or maintain within their fleet, 2) utilized within specific equipment markets (i.e., APU, turf, etc.) and/or 3) segmented by the dealer's capability to perform service for specific Kubota engine models/series (i.e., mechanically governed, CR, NSM, 05, 03, V3).	Trade Partner cannot perform warranty work.
Training	Within the first six months, service techs must complete all level 100 online courses (Course Catalog Fundamental and Engine Basic courses). Within the first year, at least one service tech must attend one instructor-led training event (level 300 course) presented by a Certified Kubota Master Trainer or KEA Trainer. The remaining level 300 courses must be completed by attending a minimum of one course per year until all four level 300 courses are completed.	Within the first six months, service techs must complete all level 100 online courses (Course Catalog Fundamental and Engine Basic courses). Within the first year, at least one service tech must attend one instructor-led training event (level 300 course) presented by a Certified Kubota Master Trainer or KEA Trainer for the Kubota product they represent. If applicable, any remaining level 300 ILT courses must be completed by attending a minimum of one ILT course per year.	Not available
