

KUBOTA Corporation

FEDERAL EMISSION CONTROL WARRANTY STATEMENT YOUR WARRANTY RIGHTS AND OBLIGATIONS

The U.S. Environmental Protection Agency (EPA) and KUBOTA Corporation are pleased to explain the Federal Emission Control System Warranty on your 2024 Model Year small nonroad spark-ignition engines. In all states except California, small nonroad spark-ignition engines must be designed, built and equipped, to meet the U.S. EPA regulations. KUBOTA must warrant the emission control system on your small nonroad spark-ignition engines for the period of time listed below provided there has been no abuse, neglect or improper maintenance to your engine. This emission warranty is applicable in all states of the U.S.A except California, and all provinces and territories of CANADA.

Your emission control system may include parts such as the carburetor or fuel-injection system, the ignition system, and catalytic converter. Also included may be hoses, belts, connectors and other emission-related assemblies.

Where a warrantable condition exists, KUBOTA will repair your engine at no cost to you, including diagnosis, parts and labor.

MANUFACTURER'S WARRANTY COVERAGE

The small nonroad spark-ignition engines are warranted for two (2) years. If any emission related part on your small nonroad spark-ignition engine is defective, the part will be repaired or replaced by KUBOTA free of charge.

OWNER'S WARRANTY RESPONSIBILITIES

- (1) As the small nonroad spark-ignition engines owner, you are responsible for the performance of the required maintenance listed in your KUBOTA owner's manual. KUBOTA recommends that you retain all receipts covering maintenance on your small nonroad spark-ignition engines, but KUBOTA cannot deny a warranty claim solely for the lack of receipts or for your failure to ensure the performance of all scheduled maintenance.
- (2) As the small nonroad spark-ignition engines owner, you should be aware, however, that KUBOTA may deny your warranty coverage if your small nonroad spark-ignition engine or a part has failed due to abuse, neglect, improper maintenance or unapproved modifications.
- (3) You are responsible for presenting your small nonroad spark-ignition engine to the nearest dealer or service station when a problem exists. The warranty repairs should be completed in a reasonable amount of time, not to exceed 30 days.
- (4) If you have any questions regarding your warranty rights and responsibilities or the location of the nearest authorized dealer or distributor, you should contact:

KUBOTA ENGINE AMERICA CORPORATION, Service Department at 1-800-532-9808, kea_g.eewri@kubota.com or KUBOTA TRACTOR CORPORATION, National Service Department at 1-800-558-2682, ktc_g.emissionswarranty@kubota.com or KUBOTA CANADA LTD at (905) 294-7477, kcl_g.customerservice@kubota.com.

DEFECTS WARRANTY COVERAGE

The emissions warranty period for the engine begins on the date the engine or equipment is delivered to an ultimate purchaser.

KUBOTA warrants to the ultimate purchaser and each subsequent purchaser that your engine shall be:

- (I) Designed, built and equipped so it conforms at the time of sale to the ultimate purchaser with the requirements of 40 CFR Part 1054.
- (II) Free from defects in materials and workmanship that cause the failure of a warranted part for a period of two years.

The warranty on emissions-related parts will be interpreted as follows:

- (1) Any warranted part that is not scheduled for replacement as required maintenance in the written instructions specified below must be warranted for the warranty period as defined above in (II). If any such part fails during the period of warranty coverage, it must be repaired or replaced by the engine manufacturer according to Subsection (4) below. Any such part repaired or replaced under the warranty must be warranted for the remaining warranty period.
- (2) Any warranted part that is scheduled only for regular inspection in the written instructions specified below must be warranted for the warranty period defined as above in (II). A statement in such written instructions to the effect of "repair or replace as necessary" will not reduce the period of warranty coverage. Any such part repaired or replaced under warranty must be warranted for the remaining warranty period.
- (3) Any warranted part that is scheduled for replacement as required maintenance in the written instructions specified below must be warranted for the period of time prior to the first scheduled replacement point for that part. If the part fails prior to the first scheduled replacement, the part must be repaired or replaced by the engine manufacturer according to Subsection (4) below. Any such part repaired or replaced under warranty must be warranted for the remainder of the period prior to the first scheduled replacement point for the part.
- (4) Repair or replacement of any warranted part under the warranty provisions of this part must be performed at no charge to the owner at a warranty station.
- (5) Notwithstanding the provisions of Subsection (4) above, warranty services or repairs must be provided at all manufacturer distribution centers that are franchised to service the subject engines.
- (6) The owner must not be charged for diagnostic labor that leads to the determination that a warranted part is in fact defective, provided that such diagnostic work is performed at a warranty station.
- (7) The engine manufacturer is liable for damages to other engine components proximately caused by a failure under warranty of any warranted part.
- (8) Throughout the engine's warranty period defined as above in (II), the engine manufacturer must maintain a supply of warranted parts sufficient to meet the expected demand for such parts.
- (9) Any replacement part may be used in the performance of any warranty maintenance or repairs and must be provided without charge to the owner. Such use will not reduce the warranty obligations of the engine manufacturer.

PARTS LIST

Each manufacturer must include a copy of the following emission warranty parts list with each new engine. Listed below are the parts covered by the Federal Emission Control Systems Warranty.

(1) Fuel Metering System

- (A) Fuel injection system.
- (B) Air/fuel ratio feedback and control system.
- (C) Carburetor system (internal parts and/or pressure regulator or fuel mixer or injection system).

(2) Air Induction System

- (A) Intake manifold or air intake system.
- (B) Air mass sensor assembly.
- (C) Air cleaner element*.

(3) Catalyst or Thermal Reactor System

- (A) Catalytic converter.
- (B) Thermal reactor.
- (C) Exhaust manifold.

(4) Positive Crankcase Ventilation (PCV) System.

- (A) PCV Valve.
- (B) Oil Filler Cap.

(5) Ignition Control System

- (A) Engine Control Module (ECM).
- (B) Ignition module(s).

(6) Miscellaneous Items Used in Above Systems

- (A) Vacuum, temperature, and time sensitive valves and switches.
- (B) Sensors used for electronic controls.
- (C) Hoses, belts, connectors, assemblies, clamps, fittings, tubing, sealing gaskets or devices, and mounting hardware.
- (D) Pulleys, belts and idlers.

*Warranty period is equivalent to manufacturer's recommended first replacement interval as stated in the applicable model's operator's manual and/or service (workshop) manual.
